

Absolute voltage mapping using dynamic photocycle control

Daozheng Gong^{1†}, Jinfan Zhang^{1†}, Madeleine R. Howell¹, Xiang Wu¹, Bill Z. Jia^{1,2}, Adam E. Cohen^{1,3*}

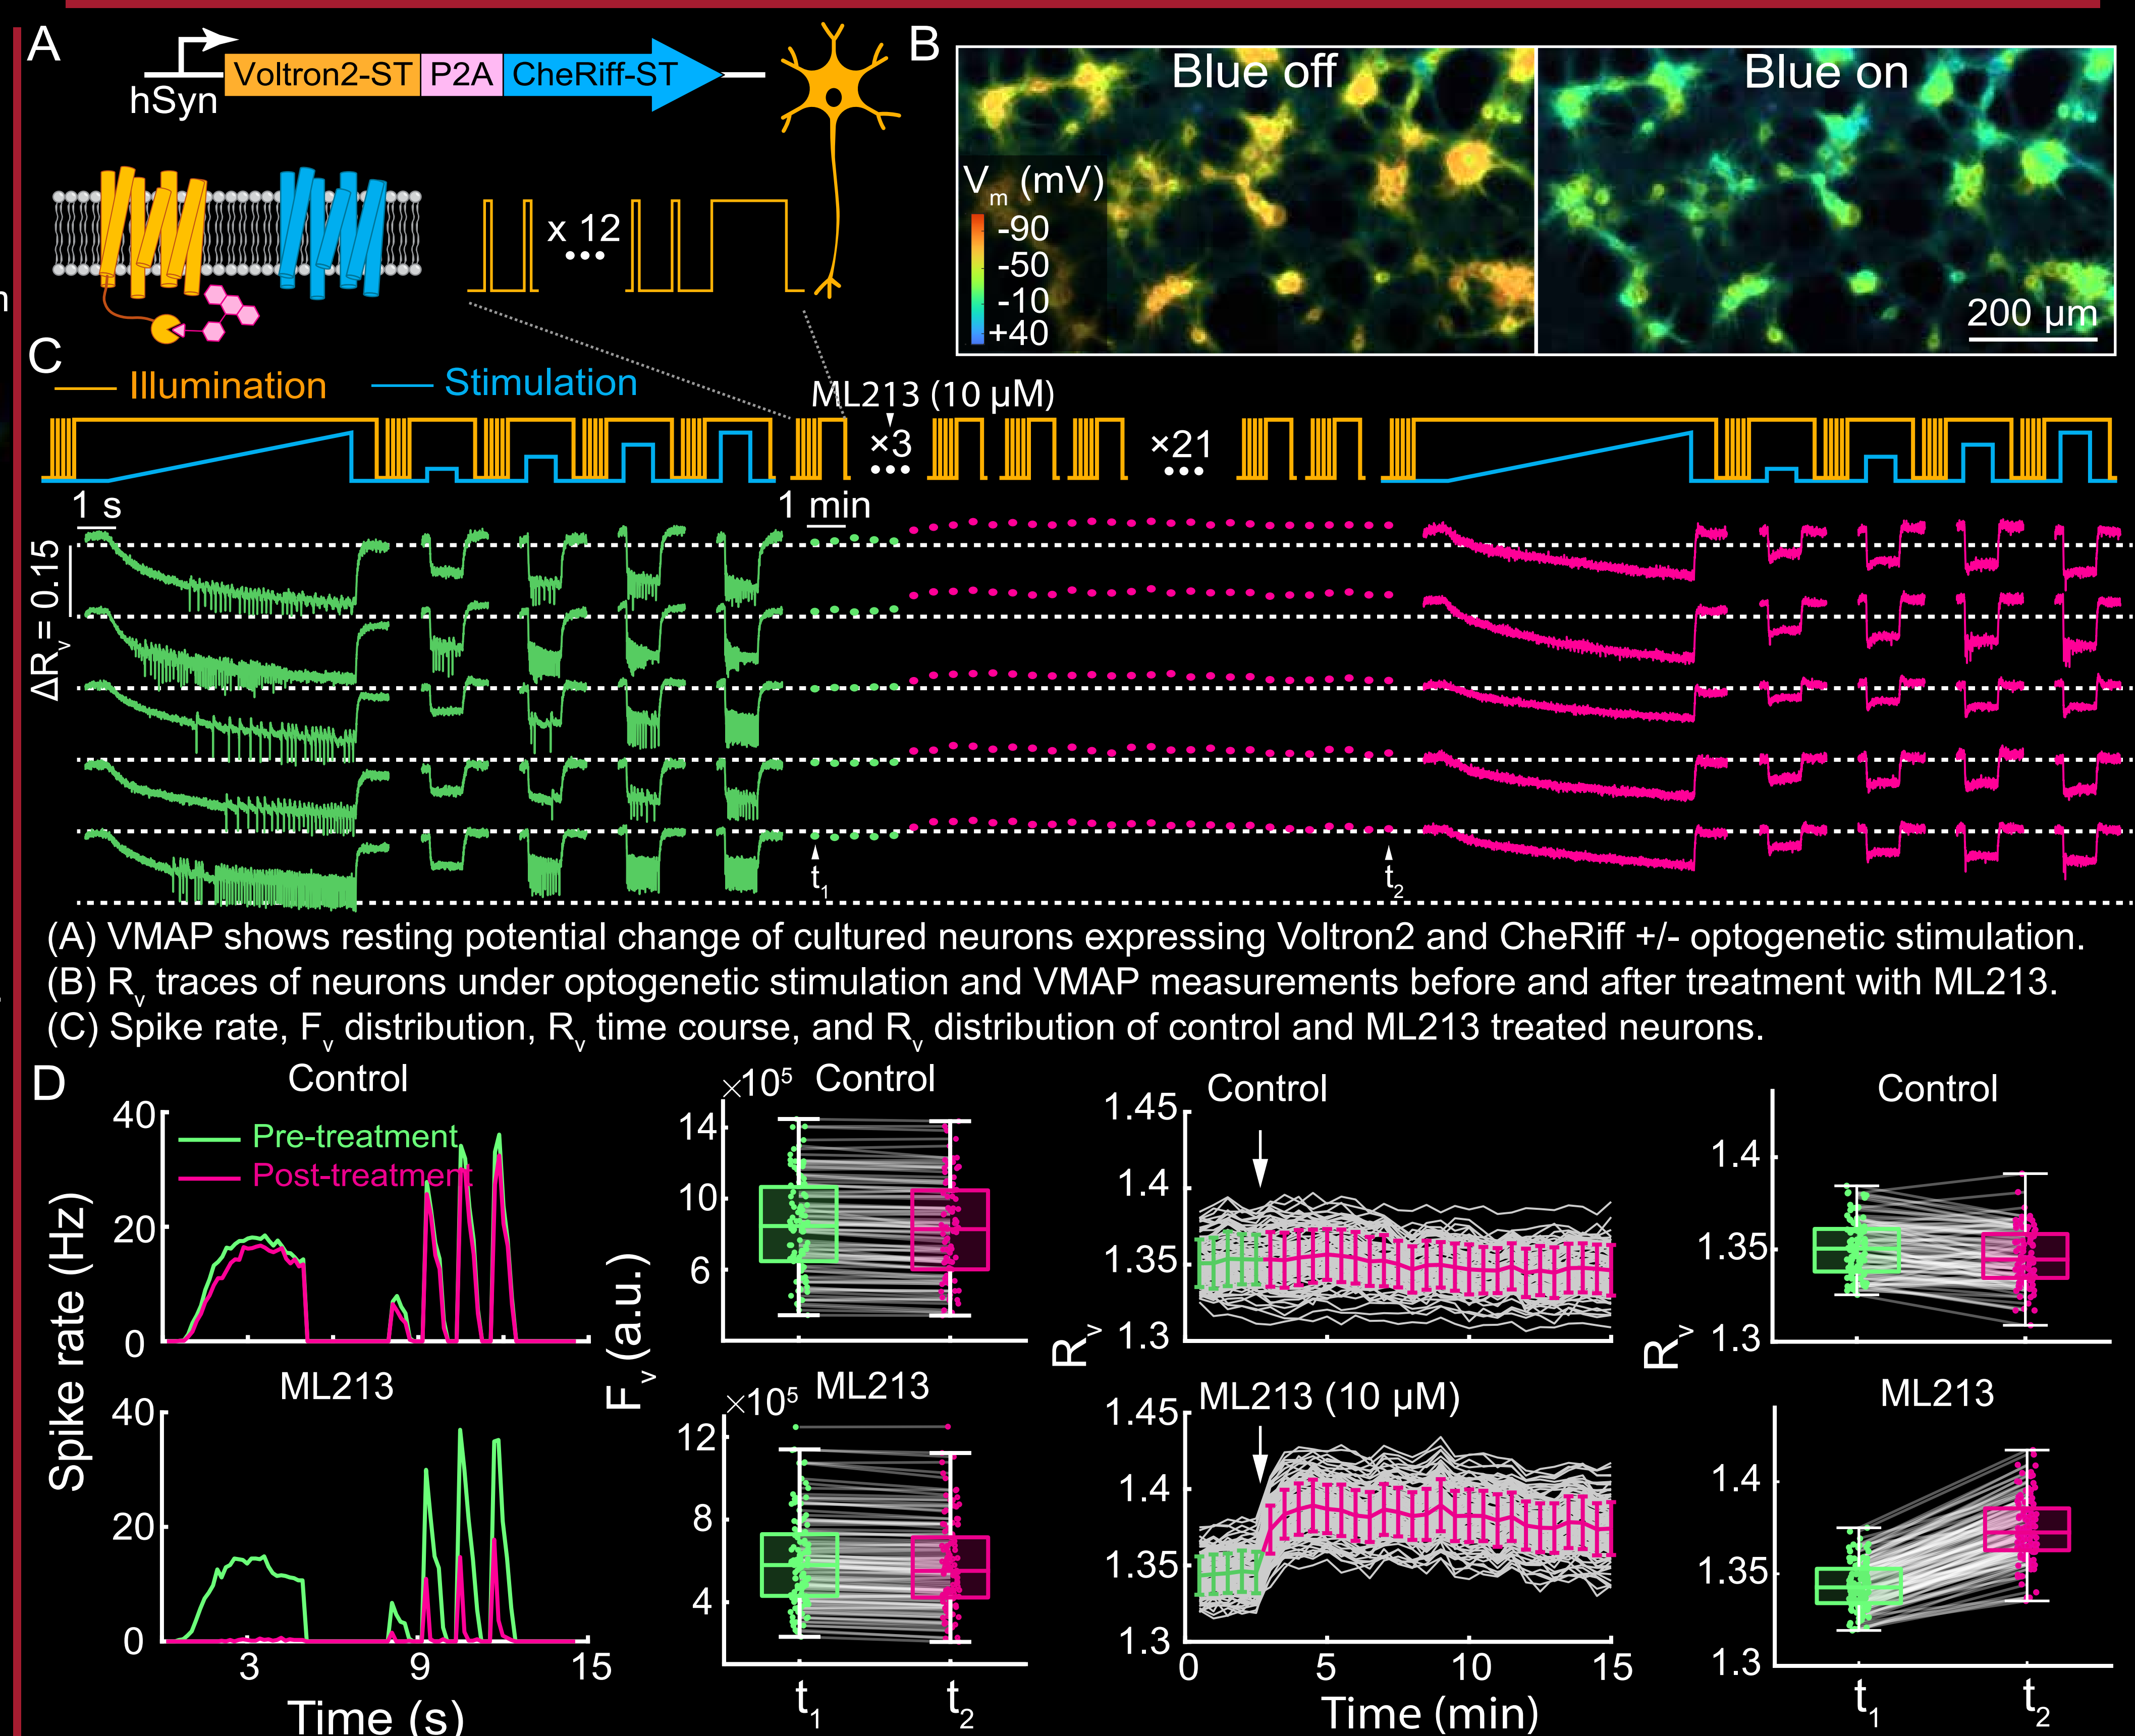

¹Department of Chemistry and Chemical Biology, Harvard University, ²Current address: Department of Physiology, University of California, San Francisco, ³Department of Physics, Harvard University, [†]Equal contribution, *cohen@chemistry.harvard.edu

Cohen
Lab

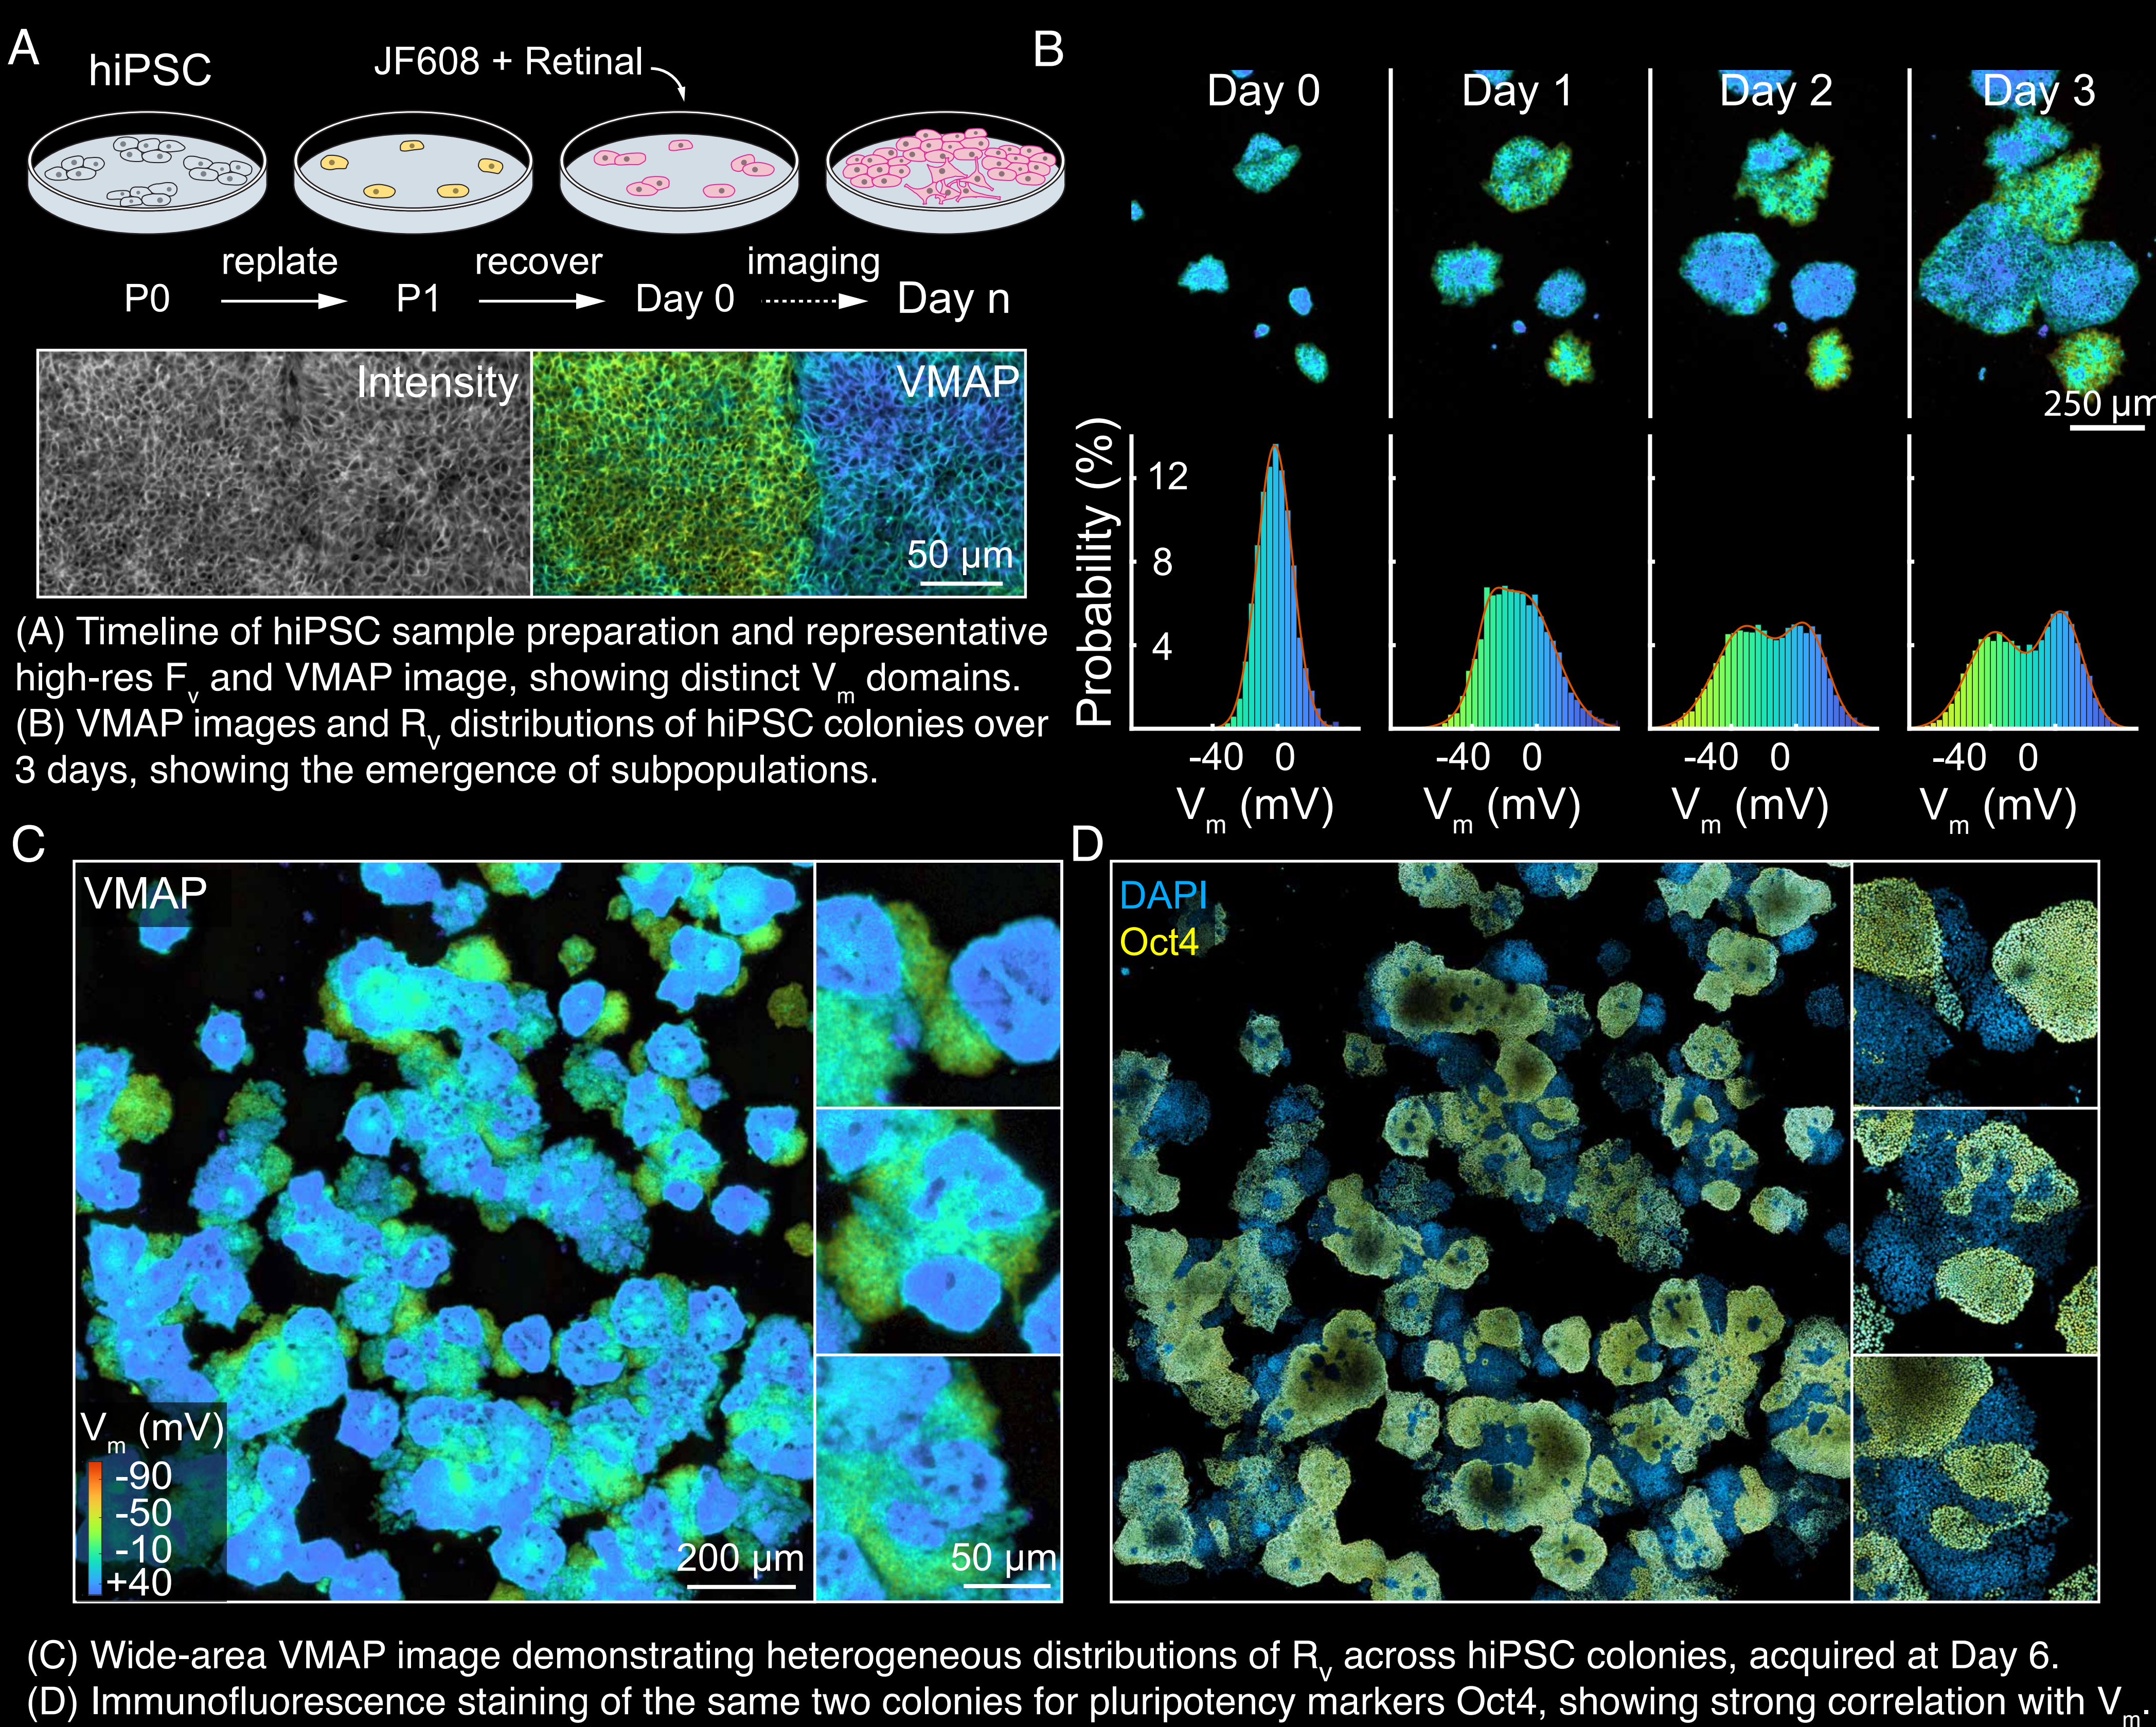

VMAP: voltage mapping by activated photocycle

VMAP probes resting potential in cultured neurons

Bioelectrical pattern formation in hiPSC colonies

Whole-body V_m mapping in zebrafish embryos
